Power	Single phase / 230 V 10 A

Reverse door

AU Shaft

The AU Shaft is one of the most affordable and easy-to-install lift shafts in Australia. This innovative product comes inclusive with the Eltec Volare.

Affordable

The cost of the AU Shaft is included in the cost of the Eltec Volare elevator. This is unprecedented within the industry and makes it one of the most affordable elevators of its kind on the market.

Configurable

The size of the structure can be adjusted according to various needs.

Adaptable

An ingenious and simple fixing system, which allows you to adapt the AU Shaft directly to its surrounds on site.

Effortless Surfacing

The AU Shaft is designed to be covered with panels in either wood or strengthened plasterboard. This allows for the easy customisation of external walls.

Easy Installation

The AU Shaft is an innovative modular system that can be installed in a single day. Each component can easily fit through a standard door opening, which means there is no need for expensive equipment like a crane.

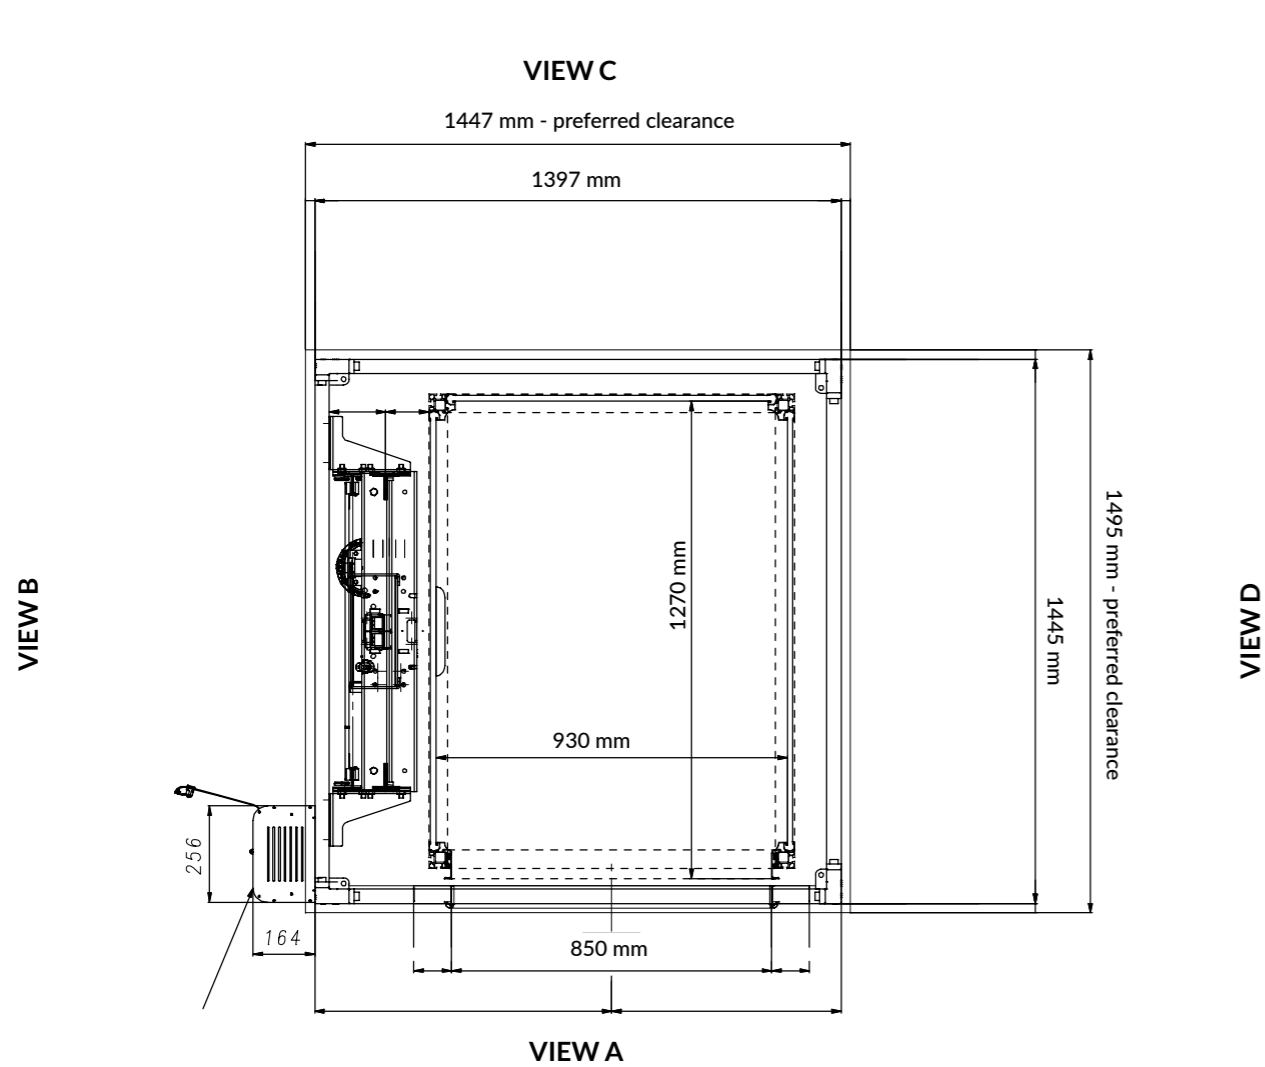

Metallic Swing door
